I am a firm believer in the future development and advancement of our beautiful community. As we know within the next few months with the completion of the dial telephone system, many of our local citizens will be employed by this modernization of the County. I propose to bring new industry into our area to supplement the loss of this big payroll and to provide additional revenue and steady employment.  
I thrive on righteousness and understanding, and will work for the betterment of our city and the future of our children as well as for the improvement of their education and environment.  
I belong to and have been active in many civic organizations and have always participated in the different community activities, serving whenever and wherever requested. On numerous occasions I have been requested to become a candidate for the service of the city and its people and to carry out, through the office of Commissioner, what is best for the City Administration.

many industries locating in our deep Southland, I earnestly believe that if a real effort was made we could establish a payroll for our City. I will support a program for the reduction of your ad valorem taxes—I believe this can be done and should be done. The City now receives many additional revenues from the City Sales Tax Program, the Gasoline Fund and an appropriation from the State of Texas. I also believe, and will support, a reduction of your gas rate. A check of the records will show that we have one of the highest in the area. My comprehensive plan will be covered in subsequent issues of this paper.

GAS clothes dryers are the choice of smart homemakers. GAS is so much faster the dryer stays ahead of the average automatic washer, saves you many washday hours. GAS dryers cost little to install, operate for less than a penny a load. You can end the drudgery of hanging wet clothes on a line... save ironing time... wash in all kinds of weather. Who wouldn't prefer a GAS clothes dryer? Dependable, economical NATURAL GAS makes the difference.

**Tommy will be happy... ...to help you plan!**

Planning to build a new home, remodel an old one or move into a recently acquired one? ... Why not call your telephone business office. We'll be glad to suggest wiring arrangements and handy step-saving locations for telephones.

Many alert builders throughout Mississippi are thoughtfully providing "pre-wiring" service in homes they build. Telephone engineers lay out and install the wiring before finished walls and woodwork are in. Wiring is concealed and possible scars in woodwork avoided.

In addition, you can have telephones where they are needed most — in living, working and sleeping areas. Be sure this isn't overlooked in your new home. At the same time, inquire about modern telephone conveniences: spring cords that never get twisted or knotted; speakerphones that let you talk with hands free; color phones to match color schemes; or dial-lighted phones that are handy for night calls.

Call your telephone business office for details and advice.
